

Richa Chauhan

UX/UI Designer | www.behance.net/RichaChauhan1989

I am an interface and Experience Designer, with a proven track record of designing high profile, industry-leading, desktop and mobile applications. My focus and competencies include user interface design, user experience design, web design, mobile app design, and prototyping.

Experience

UX/UI Designer Scriptbees IT Pvt. Ltd., Hyd May 2019 – July 2023

- Designed highly user-centric and intuitive interfaces for 4 major projects, significantly improving user experience and client satisfaction.
- Employed Adobe XD and Figma expertly for high-fidelity prototyping, consistently receiving praise for precision, creativity, and attention to detail.
- Illustrate user journey, user flow and conduct research to inform design decisions and enhance functionality effectively and efficiently.
- Worked closely with teams, communicating innovative design concepts and aligning strategic objectives.

Projects Undertaken

Sphara Mobile App Role: UX/UI Designer Timeline: 4 Months

Description: Designed an emergency alert app for timely notification during critical situations.

- Contributions:**
- Conducted competitive analysis to understand existing solutions in the market.
 - Created user flows to ensure a seamless experience.
 - Designed intuitive user interface mockups

TechTDS (SAAS) Role: UX/UI Designer Timeline: 3 Months

Description: A comprehensive Tax Deducted at Source (TDS) management System.

- Contributions:**
- Collaborated closely with stakeholders to gather and assess client (Deloitte, Bengaluru) requirements.
 - Presented mockup screens to the client for approval, ensuring alignment with their vision.
 - Focused on creating an efficient and user-friendly experience for tax professionals.

Tech3CD (SAAS) Role: UX/UI Designer Timeline: 3 Months

Description: Improving the user experience and interface of an existing tool.

- Contributions:**
- Collaborated usability testing and gathered feedback from current users.
 - Streamlined user flows, reducing complexity and enhancing efficiency.
 - Revamped the interface to align with modern design principles.
